

TREES *for* **LIFE**

PRINCE EDWARD ISLAND

Trees for Life Application Form

Thank you for your interest in Maritime Electric's Trees for Life program. If you have any questions about the application, please reach out to us Monday to Friday between 9 a.m. and 4 p.m. via phone at 1-800-670-1012 or email at treesforlife@maritimeelectric.com.

Applications are due May 26, 2023. Please submit completed applications via email to: treesforlife@maritimeelectric.com.

What to Expect on Planting Day

On the day of planting, a few Maritime Electric employees will arrive in the morning to begin setting up. We bring everything we need with us, however we do **require applicants supply access to a water source outside through an exterior hose for watering the trees.** Mid-morning, the trees will be delivered by the nursery and mulch will arrive in a large vegetation management truck.

Around lunch time, approximately 30 Maritime Electric volunteers will arrive at the planting site. We start with a quick tree planting orientation to ensure the trees have the best chance at establishing in their new home. Once we finish planting the trees, we will tidy up and leave the property as it was when we arrived. Please note we will have a photographer with us taking photos of the event.

Description of Property

Please provide detailed instructions on how to access and locate your property:

How many acres are available for planting on your property?

Please provide a description of your land including any environmental features.

Are there any safety hazards on your property that we should be aware of, such as nearby power lines?

Planting Information

Are you able to provide access to a water source, outside on the property, through an exterior hose? * **Required**

Yes

No

What benefits would added trees provide to the users of your property (For example, shade, wind protection, land beautification, etc.). **Please be specific and detailed.**

Are there any safety or environmental benefits to planting more trees on your property (For example, reducing temperatures in nearby streams)?

Please describe your plans to maintain the trees after planting (Including watering the trees for the first two weeks, cutting grass, etc.).

Please select the type of trees you would be interested in having planted on your property (a combination may be considered depending on the features given in your land description):

White Spruce (Ideal for areas with moist soil with lots of sun)

White Birch (Ideal for areas with wet to moist soil, with part shade or lots of sun)

Red Maple (Ideal for sunny areas with moist soil, sandy soil or clay)

Sugar Maple (Ideal for areas with moist and slightly acidic soil)

I understand, if I am a successful applicant, that I will be responsible for watering the trees for the first two weeks post-planting.

I understand trees cannot be planted near or under power lines, near the service entrance line, on top of underground power lines, or too close to buildings.

If I am a successful applicant, I consent to Maritime Electric using photos from planting day for website, social media and other promotional materials.

If you would like to send a photo of your site with your application, please email the photo along with your application to treesforlife@maritimeelectric.com. Thank you for your interest in this program. **Only successful applicants will be contacted.**
